**TAIYO YUDEN Holds Completion Ceremony for Second Plant of Subsidiary NIIGATA  
TAIYO YUDEN CO., LTD.**

*New Plant to Commence Operations from March 2016 Aiming at a Production Base with  
Advanced Technology*

TOKYO, February 3, 2016 - NIIGATA TAIYO YUDEN CO., LTD., a subsidiary of TAIYO YUDEN CO., LTD., has completed construction of a new plant, Building No.2, and held a completion ceremony to commemorate the achievement.

NIIGATA TAIYO YUDEN was established in 2007 as a production base for small high-capacitance multilayer ceramic capacitors. NIIGATA TAIYO YUDEN is responsible for market-leading technology manufacturing capabilities in support of production demands and solutions for smartphones, wearable devices and various other types of electronic device applications. Our outlook sees demand for multilayer ceramic capacitors expanding further in the automobile, industrial equipment, healthcare, environmental energy and other markets where computerization will be a key advancement.

Building No.2 was completed in December 2015, after which, a completion ceremony was held. Production lines will be gradually introduced and commence their operation from March 2016.

While offering electronic parts that support the evolution of electronic devices, we will utilize the Internet of Things (IoT) and big data, and enhance production efficiency, reliability, quality through production line visualization, thereby establishing a system that can respond to the customers' requests.
