

For immediate release

### **Second Report of Impact of the New Strain of Coronavirus (COVID-19)**

We would like to offer our sincerest condolences to people who lost their lives due to the infectious disease caused by the new strain of coronavirus and to their bereaved families. We would also express our deepest sympathy to people who are suffering from the disease.

At the TAIYO YUDEN Group's bases in China, giving first priority to employees' health and safety, we have been implementing preventive measures against the infectious disease, including urging employees to wear masks and wash their hands, and constantly monitoring their health conditions as a prerequisite to resume business activities at the bases.

The following shows the current situations of our production bases in China as of 1:00 p.m., February 17, 2020:

- (1) TAIYO YUDEN (GUANGDONG) CO., LTD. (Dongguan City, Guangdong Province, China)  
Product items: Multilayer ceramic capacitors, SMD power inductors, etc.  
Situation: We resumed production on February 10.
  
- (2) TAIYO YUDEN (TIANJIN) ELECTRONICS CO., LTD. (Tianjin, China)  
Product items: Inductors, etc.  
Situation: The scheduled resumption of operation has been set to February 17, but will be postponed. Operations are expected to resume after approval from local authorities, but a schedule has not been determined.
