Third Report on Measures to Prevent the Spread of Novel Coronavirus (COVID-19)

Tokyo, April 6, 2020 Based on its business continuity plan (BCP), TAIYO YUDEN is implementing a range of measures to prevent the spread of the novel coronavirus and ensure the health and safety of its employees, business partners and other stakeholders.

As part of these measures, we already asked our employees at the head office (Chuo-ku, Tokyo), Kansai Sales Office (Osaka City, Osaka), and Fukuoka Sales Office (Fukuoka City, Fukuoka) to work from home, in principle. We have decided to extend their work from home period for the time being, in response to the further spread of the novel coronavirus and to the requests made by national and local governments based on their novel coronavirus infection control policies.

Those whose work requires them to be on site are asked to take thorough infection control measures, including staggered commuting to avoid peak hours.

We will also ask employees working at other sites to work from home as much as possible and implement necessary measures in consideration of the local situation regarding the spread of coronavirus infection and in line with the policies set by the local government.

We apologize for any inconvenience this may cause and appreciate your kind understanding.
