TAIYO YUDEN is a company that makes electronic components that are indispensable for economic activity in Japan and throughout the world.

Since its founding in 1950, TAIYO YUDEN has worked to develop and mass produce electronic components that meet the most current needs of our customers and the markets we serve, ranging from the research and development of materials to product commercialization. This is what we believe in.

TAIYO YUDEN aims to be an exciting company that is trusted by all its stakeholders, with a foundation comprised mainly of its original technical capabilities and proposal-making abilities that have been developed since the company was first founded.
