

Business Fields

TAIYO YUDEN is expanding the scope in which it provides value toward the creation of a prosperous society.

TAIYO YUDEN's products are used across a wide range of fields. For example, our multilayer ceramic capacitors, a mainstay product, are used in virtually every electrical product found in our daily lives. In this sense, the scope of our efforts to provide value has expanded substantially.

Capacitors

Capacitors are used in a wide variety of electronic equipment to temporarily store electricity and remove electronic noise. TAIYO YUDEN excels in producing leading-edge, highly-reliable multilayer ceramic capacitors which are best suited to cutting-edge electronic devices including smartphones and automobiles, and large numbers of multilayer ceramic capacitors are loaded into such devices.

Others

TAIYO YUDEN offers aluminum electrolytic capacitors that are optimal for mounting on increasingly electronic automobiles as well as various types of power storage devices.

Ferrite and Applied Products*

The main products of the Ferrite and Applied Products classification are inductors used in electronic equipment power and high-frequency circuits for blocking alternating current while allowing direct current to pass through.

*Effective from FY2021, the product category name has been revised to "Inductors." Products included in the category remain unchanged.

Integrated Modules & Devices

The Integrated Modules & Devices classification's main products are FBAR/SAW devices for mobile communications, which are used primarily in smartphones to enable high-speed data communications and high-quality voice communications.

Growth in the scope of efforts to provide value

Automobiles

- Advanced driver assistance systems (ADAS)
- Meter clusters
- Electronic control units

Communication equipment

- Smartphones
- Mobile phones

IT infrastructure / Industrial equipment

- Base station communication equipment
- Servers
- Security cameras

Information equipment

- Tablet devices
- PCs

Environmental and Energy

- Solar power generators
- Electric assisted bicycles

Consumer products

- Flat-screen TVs
- Digital cameras
- Game machines

Healthcare
