## [Notes]

#### Notes - Significant accounting policies for preparation of consolidated financial statements

(1) Scope of consolidation

TAIYO YUDEN CO., LTD. (the "Company") has 33 consolidated subsidiaries (all subsidiaries). ELNA ENERGY CO., LTD. has been excluded from the scope of consolidation because the said company conducted an absorption-type merger in the current fiscal year in which ELNA CO., LTD., a consolidated subsidiary of the Company, became the surviving company.

- (2) Application of equity method
  - i) The Company has no equity-method associates.

ELNA PRINTED CIRCUITS CO., LTD. has been excluded from the scope of equity method from the current fiscal year because of a decline in the ownership ratio due to capital increase carried out by way of third-party allotment.

ii) Name of associates not accounted for by the equity method

Bifröstec Inc. and three other companies

Reasons for not accounting for by the equity method

The companies not accounted for by the equity method are excluded from the scope of equity method because the exclusion has a minimal impact on profit or loss (for the Company's equity interest), retained earnings (for the Company's equity interest) and others, and they have no importance as a whole.

# (3) The fiscal years of consolidated subsidiaries

As the reporting date for consolidated subsidiaries - TAIYO YUDEN (GUANGDONG) CO., LTD., TAIYO YUDEN (SHANGHAI) TRADING CO., LTD., TAIYO YUDEN (TIANJIN) ELECTRONICS CO., LTD., TAIYO YUDEN (SHENZHEN) ELECTRONICS TRADING CO., LTD., TAIYO YUDEN (CHINA) CO., LTD. and one other company – is December 31, their preliminary financial statements prepared as of the consolidated reporting date of March 31 are used as a basis for consolidation.

In addition, as the reporting date for ELNA CO., LTD., ELNA TOHOKU CO., LTD., ELNA ELECTRONICS (S) PTE. LTD., ELNA AMERICA, INC., ELNA (SHANGHAI) CO., LTD., TANIN ELNA CO., LTD., and ELNA-SONIC SDN. BHD. was December 31, their financial statements as of that date had been used, and necessary adjustments had been made in the consolidated financial statements with regard to any significant transactions occurring at those subsidiaries between their fiscal year-end and the consolidated balance sheet date. However, in order to understand management information and disclose the consolidated financial statements more appropriately, from the current fiscal year, the reporting date for ELNA CO., LTD. and ELNA TOHOKU CO., LTD. has been changed to March 31, and for the other five companies, their preliminary financial statements prepared as of the consolidated reporting date of March 31 are used as a basis for consolidation.

Profit or loss in these consolidated subsidiaries between January 1, 2020 to March 31, 2020 was adjusted as an increase or decrease in retained earnings.

### (4) Accounting policies

- i) Accounting policy for measuring significant assets
  - a) Securities

Other securities (available-for-sale securities)

Securities with readily determinable fair value

- Market value method based on market price as of the consolidated closing date is applied (valuation differences are reported as components of net assets and the cost of securities sold is calculated based on the moving average method.)
- Securities without readily determinable fair value
- Stated at cost using the moving-average method

Investments in limited liability partnerships for investment business and similar partnerships (falling under definition of "securities" as defined by Article 2, paragraph (2) of the Financial Instruments and Exchange Act) are valued at the net equity equivalents based on the recently available financial statements of the partnership corresponding to the reporting dates of the financial statements stipulated in the partnership agreements.

- b) Derivatives
- Market value method is applied
- c) Inventories
  - Finished goods and merchandise: Mainly stated at cost as determined by the gross average method (The book value stated in the balance sheet is written down based on the decreased profitability.) Work in process: Mainly stated at cost as determined by the gross average method (The book value stated in the balance sheet is written down based on the decreased profitability.) Raw materials and supplies: Mainly stated at cost as determined by the first-in-first-out method (The book value stated in the balance sheet is written down based on the decreased profitability.)

# ii) Accounting method for depreciation of significant assets

a) Property, plant and equipment (excluding leased assets and right-of-use assets) The declining-balance method is mainly applied for the Company and its domestic consolidated accepted under the Corporate Tax Law in Japan.

The straight-line method is mainly applied for overseas consolidated subsidiaries. b) Intangible assets (excluding leased assets)

- The straight-line method is applied for the Company and its domestic consolidated subsidiaries. Useful lives of the assets are estimated in consistent with the method accepted under the Corporate Tax Law in Japan. However, internal use software is amortized using the straight-line method over the estimated useful life which is internally determined (mainly five years). The straight-line method is applied for overseas consolidated subsidiaries.
- c) Leased assets
- Leased assets are depreciated over the leased term by the straight-line method with no residual value. d) Right-of-use assets
- Right-of-use assets are depreciated over the leased term by the straight-line method with no residual value.

# iii) Accounting method for significant provisions

- a) Allowance for doubtful accounts To prepare for losses from bad debt, the Company and its domestic consolidated subsidiaries provide collectibility in the case of specific receivables such as doubtful receivables.
- Overseas consolidated subsidiaries calculate the amount of potential loss mainly estimated on an individual basis. b) Provision for bonuses
  - To prepare for bonus payments to employees, provision for bonuses is provided based on the estimated amount of payments.
- c) Provision for bonuses for directors (and other officers) To prepare for bonus payments to directors and operating officers, provision for bonuses for directors (and other officers) is provided based on the estimated amount of payments.
- d) Provision for retirement benefits for directors (and other officers) Some consolidated subsidiaries provide the necessary amount at the end of the current fiscal year in accordance with internal rules to prepare for the payment of directors' retirement benefits.
- iv) Accounting method for retirement benefits
  - a) Method of attributing expected retirement benefit to periods In calculating retirement benefit obligations, the estimated amount of retirement benefits is attributed to the periods up to the end of the current fiscal year mainly on a benefit formula basis.

subsidiaries. However, the straight-line method is applied to buildings acquired (excluding facilities attached to buildings) on and after April 1, 1998, and facilities attached to buildings and structures acquired on and after April 1, 2016 by the Company and its domestic consolidated subsidiaries. Useful lives of the assets and residual value of the assets are mainly estimated in consistent with the method

an allowance for doubtful accounts at an uncollectible amount estimated by either using the historical rate of credit loss in the case of general receivables, or based on individual consideration of

- b) Method of expensing actuarial gains and losses
- Actuarial gains and losses are amortized by the straight-line method over a certain number of years (mostly 10 years) within the average number of remaining service years of the eligible employees at the time they arise, and allocated proportionately beginning in the following fiscal year.
- c) Adoption of simplified accounting method used by small companies Some consolidated subsidiaries apply the simplified method in calculating the retirement benefit liabilities and retirement benefit expenses, which assumes the retirement benefit obligations to be equal to the benefits payable assuming the voluntary retirement of all employees at fiscal year-end.
- v) Accounting policy for hedging
  - a) Accounting policy for hedging
  - Deferred hedge accounting is applied.
  - b) Hedging instruments and hedged items
    - Hedging instruments: Forward foreign exchange contract Hedged items: Monetary receivables and payables denominated in foreign currencies and forecast transactions
  - c) Hedging policy

In accordance with the internal risk management regulations, derivative transactions are not entered into for speculative purposes and unless they are backed by actual demand.

d) Method of evaluating hedge effectiveness

The determination of hedging effectiveness is not performed because for forward foreign exchange contracts in place to hedge foreign-currency transactions the important conditions for the hedging instrument and the hedged item are identical, and it is expected that market fluctuations, etc., will be offset at the beginning of the hedging and continuously thereafter.

vi) Accounting policy for goodwill

Goodwill and goodwill equivalent are amortized over the period within 20 years during which their effects remain using the straight-line method.

vii) Scope of cash and cash equivalents in the consolidated statement of cash flows

Cash and cash equivalents in the consolidated statement of cash flows consist of cash on hand; demand deposits; and short-term, highly liquid investments with maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

- viii) Other significant matters for preparation of the consolidated financial statements
  - a) Accounting policy for consumption taxes

Consumption taxes and local consumption taxes are accounted for based on the tax exclusion method. b) Application of consolidated taxation system

The consolidated taxation system is applied for the Company and its domestic consolidated subsidiaries.

c) Application of tax effect accounting for the transition from the consolidated taxation system to the group tax sharing system

As for items regarding the transition to the group tax sharing system introduced in the "Act Partially Amending the Income Tax Act" (Act No. 8 of 2020) and items revised on non-consolidated taxation system in connection with the transition to the group tax sharing system, the Company and its domestic consolidated subsidiaries have not applied the provisions of paragraph (44) of the "Guidance on Accounting Standard for Tax Effect Accounting" (Accounting Standards Board of Japan (ASBJ) Guidance No. 28, February 16, 2018) as allowed by the provisions of paragraph (3) of the "Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System" (ASBJ PITF No. 39, March 31, 2020). Accordingly, amounts of deferred tax assets and deferred tax liabilities are determined in accordance with the provisions of the tax law before revision. d) Stated amount

Amounts presented in the accompanying consolidated financial statements are rounded down to the

nearest million yen. Accordingly, the totals do not necessarily agree with the sum of the individual amounts.

#### Notes - Significant accounting estimates

- 1. Recoverability of deferred tax assets
- (1) Amounts recorded in the consolidated financial statements for the current fiscal year

|                     | (Millions of yen)    |
|---------------------|----------------------|
|                     | As of March 31, 2021 |
| Deferred tax assets | 2,144                |

(2) Information on the content of significant accounting estimates related to identified items Deferred tax assets are recorded to the extent that the effect of reducing the future tax payment is expected based on an estimated amount of future taxable income. The premise of the estimated taxable income is the business plans for the next fiscal year approved by the Board of Directors. Since the tax consolidation system is applied for the Company and its domestic subsidiaries, recoverability is judged with them deemed as one taxable entity. As for overseas subsidiaries, recoverability is judged for each company.

A major assumption in the business plans is projection of revenues and profits. With regard to the business plans for the next fiscal year, demand forecasts are made based on market statistics and customer trends, sales plans are developed by customer and by product, production items and volumes are determined for each factory, and plans for production costs and administrative expenses are prepared by company and by department. After profits are allocated by considering consistency with targets, production capacity, forecasts of exchange rates, and the transfer pricing taxation rules, business plans on a consolidated basis and by each company are finalized, which serve as the premise of the estimated future taxable income.

As stated above, the business plans for the next fiscal year that serve as the premise of judging recoverability include many factors of estimation, such as sales volume/prices and exchange rates. The electronic components industry is volatile, and these factors may fluctuate beyond the scope of assumptions made as of the time when the business plans for the next fiscal year were prepared. Any changes in the conditions that serve as the premise of judging recoverability may significantly affect the amounts of deferred tax assets and deferred taxes in the consolidated financial statements for the next fiscal year.

#### 2. Impairment of non-current assets

(1) Amounts recorded in the consolidated financial statements for the current fiscal year

|   | (Millions of yen)                        |
|---|--|
|   | As of March 31, 2021 and                 |
|   | for the fiscal year ended March 31, 2021 |
| Property, plant and equipment and intangible assets | 160,544                                  |
| Impairment losses                                   | 1,084                                    |

(2) Information on the content of significant accounting estimates related to identified items The Company group (the "Group") mainly categorizes assets based on product groups. When there is an indication of impairment, such as continuous losses from operating activities in a certain product group, recoverability test is made. If the recoverable amount, such as the total amount of undiscounted future cash flows from the relevant asset group, is less than the book value, the carrying amount is reduced to the recoverable amount, and the reduced amount is recorded as an impairment loss.

In the current fiscal year, a recoverability test was made to a business operated by ELNA CO., LTD. and its subsidiaries, because it was not certain that profits/losses from operating activities were positive due to the fact that aluminum electrolytic capacitors, the core product, were affected by sluggish demand in the automobile industry and other factors. This business group had property, plant and equipment of ¥5,489 million and intangible assets of ¥97 million as of March 31, 2021. However, since undiscounted future cash flows exceed the book value of the relevant assets, an impairment loss has not been recognized.

Undiscounted future cash flows were estimated based on the business plans and the medium-term plan approved by the Board of Directors, and the plans for the business associated with the relevant asset group were used. These plans were prepared based on assumptions including a sales plan developed by taking into

account market trends, such as the growth rate for conductive polymer hybrid aluminum electrolytic capacitors for which demand is expected to increase, and estimated production volume at customers, as well as a cost reduction plan.

The Group has judged that the estimates using these premises are reasonable. However, if a revision is required due to changes in the economic environment or business strategy, impairment may need to be recognized in the following fiscal year.

#### Notes - New accounting standards not yet applied

- · "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, issued by the Accounting Standards Board of Japan on March 31, 2020)
- · "Implementation Guidance on Accounting Standard for Revenue Recognition" (ASBJ Guidance No. 30, issued by the Accounting Standards Board of Japan on March 26, 2021)
- · "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19, issued by the Accounting Standards Board of Japan on March 31, 2020)

#### (1) Outline

The International Accounting Standards Board (IASB) and the US Financial Accounting Standards Board (FASB) jointly developed comprehensive accounting standards for revenue recognition and issued "Revenue from Contracts with Customers" in May 2014 (as IFRS 15 by IASB and Topic 606 by FASB). Considering that IFRS 15 shall apply to fiscal years beginning on or after January 1, 2018, and Topic 606 shall apply to fiscal years beginning after December 15, 2017, the ASBJ developed a comprehensive accounting standard on revenue recognition and thus issued the accounting standard together with the implementation guidance.

The ASBJ established the accounting standard for revenue recognition by following the basic policies: firstly, incorporating the core principle of IFRS 15 as the starting point from the perspective of facilitating comparability among financial statements, which is one of the benefits of ensuring consistency with IFRS 15; secondly, adding alternative treatments, but to the extent not impairing comparability, where consideration should be given to the practice having been used in Japan.

# (2) Scheduled date of application

These accounting standards will be applied from the beginning of the fiscal year ending March 31, 2022.

(3) Effects of application of the accounting standards, etc.

The impact of the application of the "Accounting Standard for Revenue Recognition," etc. on the consolidated financial statements is immaterial.

- · "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, issued by the Accounting Standards Board of Japan on July 4, 2019)
- · "Accounting Standard for Measurement of Inventories" (ASBJ Statement No. 9, issued by the Accounting Standards Board of Japan on July 4, 2019)
- · "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, issued by the Accounting Standards Board of Japan on July 4, 2019)
- · "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31, issued by the Accounting Standards Board of Japan on July 4, 2019)
- · "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19, issued by the Accounting Standards Board of Japan on March 31, 2020)

#### (1) Outline

In light of the situation in which the International Accounting Standards Board (IASB) and the US Financial Accounting Standards Board (FASB) have established detailed guidances on fair value measurement with almost the same content (IFRS 13 "Fair Value Measurement" in International Financial Reporting Standards (IFRS), and Accounting Standards Codification Topic 820 "Fair Value Measurement" in the US GAAP), the ASBJ worked to ensure consistency of the Japanese GAAP with international accounting standards mainly for guidance and disclosures on fair value of financial instruments and issued the "Accounting Standard for Fair Value Measurement" as well as issued or revised related accounting standards and implementation guidances.

The ASBJ's basic policy for the development of the accounting standard for fair value measurement is to incorporate, in principle, all the provisions of IFRS 13 from the perspective of increasing comparability of financial statements among companies in Japan and overseas by using the unified measurement method, and to establish other treatments of individual items to the extent that consideration is given to practices that have been conducted to date in Japan and comparability among financial statements is not materially impaired.

- (2) Scheduled date of application These accounting standards will be applied from the beginning of the fiscal year ending March 31, 2022.
- (3) Effects of application of the accounting standards, etc. The impact of the application of the "Accounting Standard for Fair Value Measurement," etc. on the consolidated financial statements is currently undetermined.

#### Notes - Changes in presentation

The presentation of certain accounts of the previous fiscal year has been changed to conform with the presentation adopted for the current fiscal year.

Application of "Accounting Standard for Disclosure of Accounting Estimates" The Group has applied the "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No. 31, issued on March 31, 2020) from the consolidated financial statements related to the end of the current fiscal year, providing notes on significant accounting estimates in the consolidated financial statements.

However, the contents related to the previous fiscal year have not been provided in these notes, in accordance with the transitional treatment specified in the provision of paragraph (11) of the accounting standard.

#### **Notes - Additional information**

Accounting estimates associated with the novel coronavirus disease (COVID-19) Although there are concerns that the impact of COVID-19 will be prolonged, it is assumed that the Group's business activities will be able to operate as normal without any major obstacles, and it is considered that accounting estimates such as recoverability of deferred tax assets and impairment of non-current assets will not be affected significantly. However, it is difficult to predict the impact of COVID-19, when it will fade away, and others, and consolidated financial statements for the following fiscal years may be affected, depending on future changes in the economic environment and other factors.

#### Notes - Consolidated balance sheet

\*1 Investments in associates are as follows:

|                                |                      | (Millions of yen)    |
|--------------------------------|----------------------|----------------------|
|                                | As of March 31, 2020 | As of March 31, 2021 |
| Investment securities (shares) | 561                  | 209                  |

\*2 Promissory notes due on the balance sheet date

Promissory notes due on the balance sheet date are accounted for as settled on the clearing date. However, the reporting date of the previous fiscal year for some consolidated subsidiaries, which differs from the reporting date of the consolidated balance sheet, was a non-business day for financial institutions. The following promissory notes due on the reporting date of the previous fiscal year are included in the balance at the end of the previous fiscal year.

|                          |                      | (Millions of yen)    |
|--------------------------|----------------------|----------------------|
|                          | As of March 31, 2020 | As of March 31, 2021 |
| Notes receivable - trade | 18                   | _                    |

#### Notes - Consolidated statement of income

\*1 The amount of inventories at the fiscal year-end represents the amount after writing down of the book value due to declines in profitability of assets, and the following loss on revaluation of inventories is included in the cost of sales. (The figure in parenthesis represents the amount of reversal.)

|  | (Millions of yen)                      |
|--|--|
| Fiscal year ended March 31, 2020       | Fiscal year ended March 31, 2021       |
| (from April 1, 2019 to March 31, 2020) | (from April 1, 2020 to March 31, 2021) |
| 169                                    | 140                                    |

\*2 Major items and amounts of selling, general and administrative expenses are as follows.

|  |  | (Millions of yen)  |
|--|--|--|
|  | Fiscal year ended March 31, 2020<br>(from April 1, 2019 to March 31, 2020) | Fiscal year ended March 31, 2021<br>(from April 1, 2020 to March 31, 2021) |
| Freight costs and fees                                   | 5,740  | 7,491  |
| Research and development expenses                        | 12,921   | 12,550   |
| Employees' salaries and allowances                       | 11,745   | 11,703   |
| Retirement benefit expenses                              | 665  | 748  |
| Provision for bonuses                                    | 1,813  | 1,714  |
| Provision for bonuses for directors (and other officers) | 233  | 388  |
| Depreciation   | 1,160  | 1,435  |
| Provision of allowance for doubtful accounts             | (31)   | 34   |

#### \*3 Total amount of research and development expenses included in general and administrative expenses and production cost in the current period

|  | (Millions of yen)                      |
|--|--|
| Fiscal year ended March 31, 2020       | Fiscal year ended March 31, 2021       |

| 12,921                                 | 12,550                                 |

#### \*4 Details of gain on sale of non-current assets are as follows:

|                                   |  | (Millions of yen)  |
|-----------------------------------|--|--|
|                                   | Fiscal year ended March 31, 2020<br>(from April 1, 2019 to March 31, 2020) | Fiscal year ended March 31, 2021<br>(from April 1, 2020 to March 31, 2021) |
| Buildings and structures          | 119  | _  |
| Machinery, equipment and vehicles | 13   | 37   |
| Land                              | 15   | 19   |
| Other                             | 0  | 0  |
| Total                             | 148  | 57   |

#### \*5 Details of loss on sale and retirement of non-current assets are as follows:

|  | Fiscal year ended March 31, 2020<br>(from April 1, 2019 to March 31, 2020) | (Millions of yen<br>Fiscal year ended March 31, 2021<br>(from April 1, 2020 to March 31, 2021) |
|--|--|--|
| Loss on retirement of non-current assets |  |  |
| Buildings and structures                 | 389  | 113  |
| Machinery, equipment and vehicles        | 268  | 114  |
| Other                                    | 18   | 21   |
| Subtotal                                 | 676  | 249  |
| Loss on sale of non-current assets       |  |  |
| Machinery, equipment and vehicles        | 75   | 331  |
| Other                                    | 11   | 43   |
| Subtotal                                 | 87   | 375  |
| Total                                    | 764  | 624  |

#### \*6 Impairment losses

The Group recorded impairment losses with respect to the following asset groups. dad Marah 21, 2020 (from April 1, 2010 to Marah 21, 2020

| Fiscal year ended March 31        | , 2020 (from April 1, 20 | 19 to March 31, 2020)                           |                |
|-----------------------------------|--------------------------|---|----------------|
| Туре                              | Application              | Location  | Amount         |
| Machinery, equipment and vehicles | Idle assets              | The Philippines; Inami-cho, Wakayama;<br>Others | ¥83 million    |
| Goodwill                          | Other                    | -   | ¥5,206 million |
|                                   |                          |   |                |

The Group categorizes its business assets by segmentation for management accounting, and idle assets by individual asset. Property, plant and equipment such as head office and laboratories are categorized as common assets.

For the idle assets with no specific utilization plan and no recoverability, their book values have been written down to the memorandum value and such reduction was recorded as impairment loss.

Regarding goodwill that arose when consolidated subsidiary ELNA CO., LTD. came within the scope of consolidation, in addition to sluggish demand in the automobile market from the previous fiscal year, the spread of COVID-19 and other factors have led automobile manufacturers, which are our main customers, to slow down their operations. Regarding the impact of COVID-19, given the external information available at the end of the fiscal year ended March 31, 2020, and based on the assumption that the impact will continue for a certain period into the next fiscal year (fiscal year ended March 31, 2021), the revenue initially estimated could no longer be expected, and therefore its book values have been written down to the recoverable value and such reduction was recorded as impairment loss.

It is noted that the recoverable amount is measured at value in use and is assessed by discounting future cash flows at a rate of 6.32%.

# Fiscal year ended March 31, 2021 (from April 1, 2020 to March 31, 2021)

| Туре                               | Application     | Location  | Amount       |
|------------------------------------|-----------------|---|--------------|
| Buildings, machinery and equipment | Business assets | Nishigo-mura, Fukushima                             | ¥633 million |
| Buildings and structures           | Idle assets     | Maebashi-shi, Gunma; Others                         | ¥243 million |
| Machinery, equipment and vehicles  | Idle assets     | Maebashi-shi, Gunma; Inami-cho,<br>Wakayama; Others | ¥180 million |
| Other                              | Idle assets     | Takasaki-shi, Gunma; Others                         | ¥27 million  |

The Group categorizes its business assets by segmentation for management accounting, and idle assets by individual asset. Property, plant and equipment such as head office and laboratories are categorized as common assets.

As for business assets, their book values have been written down to the recoverable value due to a decline in profitability, and such reduction was recorded as impairment loss. Their components are buildings and structures of ¥83 million and machinery, equipment and vehicles of ¥550 million.

For the idle assets with no specific utilization plan and no recoverability, their book values have been written down to the memorandum value and such reduction was recorded as impairment loss. The recoverable amount was measured at value in use, and which was evaluated as zero.

- \*7 Business restructuring expenses
  - Fiscal year ended March 31, 2020 (from April 1, 2019 to March 31, 2020) Not applicable

### (2) Dividends for which record date is in the current fiscal year with effective date in the following fiscal year

|   | Resolution  | Class of shares | Total amount of<br>dividends<br>(Millions of yen) | Source of dividends | Dividends per<br>share (Yen) | Record date    | Effective date |
|---|---|-----------------|---|---------------------|------------------------------|----------------|----------------|
| 2 | Ordinary General<br>Meeting of<br>Shareholders held on<br>June 29, 2021 | Common<br>stock | 3,137   | Retained earnings   | 25                           | March 31, 2021 | June 30, 2021  |

#### Notes - Consolidated statement of cash flows

Reconciliation between cash and cash equivalents at end of period and the amount on the consolidated balance sheet (Millions of yon)

|  |  | (withous of yen)   |
|--|--|--|
|  | Fiscal year ended March 31, 2020<br>(from April 1, 2019 to March 31, 2020) | Fiscal year ended March 31, 2021<br>(from April 1, 2020 to March 31, 2021) |
| Cash and deposits                                    | 59,622   | 84,297   |
| Time deposits with a deposit period of over 3 months | (2,337)  | (2,511)  |
| Cash and cash equivalents                            | 57,285   | 81,785   |

## Notes - Leases

- 1. Finance lease transactions
  - Finance lease transactions that do not transfer ownership
  - Details of leased assets i) Property, plant and equipment

Principally production facilities (machinery, equipment and vehicles)

ii) Method of depreciation of leased assets

The method of depreciation of leased assets is as described in "(4) Accounting policies ii) Accounting method for depreciation of significant assets," in the section of significant accounting policies for preparation of consolidated financial statements.

### 2. Right-of-use assets

i) Details of right-of-use assets Property, plant and equipment

Principally plants and offices (land, buildings and structures)

ii) Method of depreciation of leased assets

The method of depreciation of leased assets is as described in "(4) Accounting policies ii) Accounting method for depreciation of significant assets," in the section of significant accounting policies for preparation of consolidated financial statements.

# 3. Operating lease transactions

Future minimum lease payments under non-cancelable operating lease transactions Notes on this item have been omitted as it is immaterial.

# **Notes - Financial instruments**

- 1. Status of financial instruments
- (1) Policy for financial instruments

The Group, which mainly produces and markets electronic components, procures short-term operating funds through bank loans, and long-term funds for capital investment, etc. through bank loans and issuance of corporate bonds in accordance with a capital investment plan. Temporary surplus funds are managed as safe and secure financial funds such as short-term deposits. The Group uses derivative transactions to hedge risks stated below, and does not intend to use them for speculative purpose.

- (2) Description of financial instruments and associated risks, and risk management structure Trade receivables are exposed to customer credit risk. Therefore, the Group manages due dates and balances for each customer, and makes efforts to early recognize concerns about collectibility and reduces its risks due to deterioration in financial conditions, etc.
  - Investment securities consisting mainly of shares of companies with which the Group has business relationship are managed by reviewing market values and financial conditions of issuers on a regular basis.
  - Payment due dates of most trade payables are within one year. The Group uses bank borrowings mainly for the purpose of procuring funds necessary for capital investment.

Bank borrowings are not exposed to interest rate fluctuation risk as their interest rates are fixed. Operating receivables and payables denominated in foreign currencies, arising from global business operations, are exposed to exchange rate fluctuation risk, but the risk is hedged by using forward foreign exchange contracts. Forward exchange contracts are used for operating receivables and payables, which are certain to arise from export and import transactions. The Group engages in derivative transactions only with high-rated financial institutions.

The finance department executes and manages derivative transactions in accordance with the internal risk management regulations that stipulate trading authority, the limit amount and other related matters. The department also records details of transactions and check balances with counterparties. The results of transactions are reported by the head of the finance department to the officer in charge.

The Company unifies the management of funds of the entire Group based on funding plans prepared by each group company in order to allow them to secure adequate liquidity.

(3) Supplemental information on fair value of financial instruments The fair value of financial instruments include the value based on market prices and reasonably determined value in cases where market prices are not available. As the value not based on market quotations is calculated by incorporating variable factors, it can vary depending on assumptions adopted.

#### 2. Fair value of financial instruments

Carrying amounts in the consolidated balance sheet, fair value, and the difference between them are as shown below. The amounts shown in the following tables do not include financial instruments whose fair values are deemed to be extremely difficult to determine (see Note 2).

### As of March 31, 2020

|  |                  |            | (Millions of yen |
|--|------------------|------------|------------------|
|  | Carrying amounts | Fair value | Difference       |

| (8) Long-term borrowings (*1)             | 55,250           | 54,388     | (862)             |
| Total liabilities                         | 127,189          | 126,327    | (862)             |
| (9) Derivative transactions (*2)          | (1,898)          | (1,898)    | _                 |

(\*1) The amounts include current portion of long-term borrowings.

(\*2) Receivables and payables arising from derivative transactions are shown on the net basis.

(Notes) 1. Measurement methods for fair values of financial instruments and matters regarding securities and derivative transactions

# Assets

(1) Cash and deposits, (2) Notes and accounts receivable - trade

Since these are settled in short term, their fair values are approximate to book values. Accordingly, they are stated at book value.

(3) Investment securities

The fair values of investment securities are stated at price on exchange market.

#### Liabilities

(4) Notes and accounts payable - trade, (5) Short-term borrowings, (6) Accounts payable - other, (7) Income taxes payable

Since these are settled in short term, their fair values are approximate to book values. Accordingly, they are stated at book value.

(8) Long-term borrowings

The fair values of long-term borrowings are measured as present values obtained by discounting total amount of principal and interest at the estimated interest rate if similar borrowings were newly made.

(9) Derivative transactions

The fair values of forward exchange contracts are stated at prices offered by correspondent financial institutions.

2. Financial instruments whose fair value is considered to be extremely difficult to determine

|   |                      | (Millions of year)   |
|---|----------------------|----------------------|
| Category  | As of March 31, 2020 | As of March 31, 2021 |
| Unlisted equity securities  | 1                    | 1                    |
| Shares of associates  | 561                  | 209                  |
| Equities of limited liability<br>partnerships for investment<br>business and of other similar<br>partnerships | 3                    | 6                    |

As for financial instruments shown above, there is no market price and future cash flow cannot be estimated. Accordingly, it is considered extremely difficult to determine their fair value, and therefore they are not included in "Assets (3) Investment securities."

 Redemption schedule for monetary receivables and securit As of March 31, 2020

### 3. Impaired securities

The Company has recorded an impairment loss on securities of ¥17 million (other securities of ¥17 million) for the fiscal year ended March 31, 2020.

The Company has not recorded an impairment loss on securities for the fiscal year ended March 31, 2021.

The Company records an impairment loss on all securities whose fair values as of the end of the fiscal year are less than 50% of their acquisition costs. For securities whose fair values as of the end of the fiscal year decreased by 30% to 50% from their acquisition costs, the Company records an impairment loss when it is deemed necessary by examining the recoverability of the amount.

|  | to March 31, 2020)                 | to March 31, 2021)               |
| Service cost   | 665                                | 707                              |
| Net interest   | 64                                 | 75                               |
| Amortization of actuarial gains and losses           | 47                                 | 89                               |
| Amortization of past service cost                    | (0)                                | (0)                              |
| Retirement benefit expenses for defined benefit plan | 776                                | 871                              |

Notes: 1. In accordance with the "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries, etc. for Consolidated Financial Statements" (ASBJ PITF No. 18, February 19, 2010), the total amounts of actuarial differences are systematically expensed each year over a certain number of years within the employees' average remaining years of service.

- 2. Other than the above retirement benefit expenses associated with the defined benefit pension plan, during the current fiscal year, the Company has recorded ¥196 million of expenses incurred for voluntary retirement of employees for overseas subsidiaries as "Business restructuring expenses" under "Extraordinary losses."
- (5) Remeasurements of defined benefit plans, net of tax (Consolidated statement of comprehensive income) The breakdown of remeasurements of defined benefit plans, net of tax (before deduction of tax effects) is as follows:

|                            |                                  | (Millions of yen)                |
|----------------------------|----------------------------------|----------------------------------|
|                            | Fiscal year ended March 31, 2020 | Fiscal year ended March 31, 2021 |
|                            | (from April 1, 2019              | (from April 1, 2020              |
|                            | to March 31, 2020)               | to March 31, 2021)               |
| Past service cost          | (0)                              | (0)                              |
| Actuarial gains and losses | (426)                            | (155)                            |
| Total                      | (427)                            | (155)                            |

### (6) Remeasurements of defined benefit plans (Consolidated balance sheet)

The breakdown of remeasurements of defined benefit plans (before deduction of tax effects) is as follows: (Millions of ven)

|   |                      | (Millions of yen)    |
|---|----------------------|----------------------|
|   | As of March 31, 2020 | As of March 31, 2021 |
| Unrecognized past service cost          | (1)                  | (2)                  |
| Unrecognized actuarial gains and losses | (754)                | (906)                |
| Total                                   | (756)                | (909)                |

(7) Plan assets

i) Major components of plan assets

The ratio of major categories to total plan assets is as follows:

|                   |                      | (%)                  |
|-------------------|----------------------|----------------------|
|                   | As of March 31, 2020 | As of March 31, 2021 |
| Bonds             | 66                   | 61                   |
| Shares            | 13                   | 16                   |
| Cash and deposits | 10                   | 14                   |
| Other             | 11                   | 9                    |
| Total             | 100                  | 100                  |

Note: The retirement benefit trust, which was set up for the lump-sum retirement benefit plan, accounts for 75% and 78% of total plan assets as of March 31, 2020 and 2021, respectively.

#### ii) Long-term expected rate of return

The long-term expected rate of return is not specified as IAS 19 is applied.

#### (8) Basis for actuarial calculations

|                                    |                                  | (%)                              |
|------------------------------------|----------------------------------|----------------------------------|
|                                    | Fiscal year ended March 31, 2020 | Fiscal year ended March 31, 2021 |
|                                    | (from April 1, 2019              | (from April 1, 2020              |
|                                    | to March 31, 2020)               | to March 31, 2021)               |
| Discount rate                      | 0.00 - 5.00                      | 0.00 - 5.05                      |
| Forecasted rate of salary increase | 2.30 - 5.00                      | 2.30 - 5.00                      |
|                                    |                                  |                                  |

### 3. Defined contribution plan

The required contribution amounts to the defined contribution plan of the Company and its consolidated subsidiaries were ¥1,378 million in the previous fiscal year and ¥1,449 million in the current fiscal year.

#### Notes - Stock options, etc.

1. Expenses and account titles for stock options

| ·  |  | (Millions of yen)  |
|--|--|--|
|  | Fiscal year ended March 31, 2020<br>(from April 1, 2019 to March 31, 2020) | Fiscal year ended March 31, 2021<br>(from April 1, 2020 to March 31, 2021) |
| Selling, general and administrative expenses | 133  | 173  |

#### 2. Details, size and changes in the number of stock options (1) Details of stock options

| -                                   | (Yen)             |
|-------------------------------------|-------------------|
| Company name                        | Reporting company |
| Resolution date                     | June 26, 2020     |
| Exercise price                      | 1                 |
| Average share price at exercise     | _                 |
| Fair value unit price on grant date | 3,277             |

- 4. Method of estimating fair value unit price of stock options The fair value unit price of the stock options determined by the resolution on June 26, 2020 and granted during the fiscal year ended March 31, 2021, was estimated based on the following:
- (1) Valuation techniques used Black-Scholes Model (2) Major basic numerical values and estimation method

| Major basic numerical values and estin          |               |
|---|---------------|
| Resolution date                                 | June 26, 2020 |
| Volatility of share price (Note) 1              | 48.4%         |
| Estimated remaining outstanding period (Note) 2 | 3.6 years     |
| Estimated dividend (Note) 3                     | ¥26/share     |
| Risk-free interest rate (Note) 4                | (0.16)%       |

(Notes) 1. The volatility of share price is estimated based on weekly historical share prices from December 5, 2016 to July 13, 2020.

- 2. The estimated remaining outstanding period refers to the average period of service as Director less the already served retirement as Director.
- 3. The estimated dividend is based on the actual per share dividend distributed in the fiscal year ended March 31, 2020.
- corresponding to the estimated remaining outstanding period.
- 5. Method of estimating number of stock options vested The number of stock options vested is equal to the number of stock options granted since the options were vested on the grant date.

period of service as Director. The stock options are assumed to be exercised immediately after the Director's

4. The risk-free interest rate represents the interest rate on Japanese government bonds with the remaining period
