

TAIYO YUDEN Submitted a Commitment Letter for SBT Certification
*Contributing to the creation of a sustainable society through climate change
countermeasures*

TOKYO, August 6, 2024 — TAIYO YUDEN CO., LTD. submitted a commitment letter to SBTi, a certification organization of Science Based targets (SBT).

Background

In its Medium-term Management Plan 2025, the TAIYO YUDEN Group includes the enhancement of its climate change countermeasures in its materiality, aiming to enhance its corporate value through the combination of economic and social value. To this end, in line with the Science Based Targets (SBT) 1.5°C target, the Group set its medium-term target of reducing its greenhouse gas (GHG) emissions by 42% relative to the fiscal 2020 level by fiscal 2030, and thoroughly promotes planning and working on energy efficiency & conservation, energy creation, and the utilization of renewable energy.

Based on the recognition that ESG-related measures, including those against climate change, pose both opportunities and risks to its business management, the TAIYO YUDEN Group is conducting activities to solve social issues through its business operations. Going forward, the TAIYO YUDEN Group will continue to contribute to the sustainability of society and further increase its corporate value by manufacturing based on the principle of decarbonization.

TAIYO YUDEN also discloses information about its sustainability activities on its website at: <https://www.yuden.co.jp/or/company/sustainability/>
