

A Product Lineup That Meets a Variety of Needs Across All Applications

MLCC Business Trends

Lineup

Widely adopted in AI servers and information infrastructure equipment, where the market needs are rapidly expanding

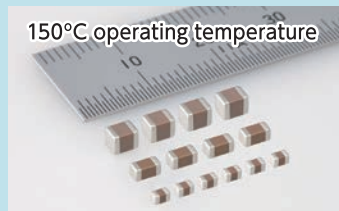

0603 (mm) case size

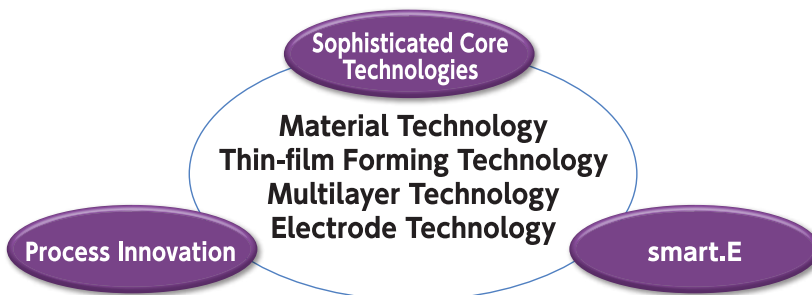

High Reliability

for Automotive/Industrial equipment

- high temperature and high voltage
- 0603 to 4532 (mm) case size

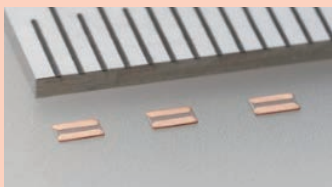

150°C operating temperature

Ultra-Low Profile

World's lowest profile (0.064 mm-thick)

World's lowest profile of 0.064 mm is achieved offering a low-profile and low-ESL structure; enhancing the performance of 5G smartphones

Small Size • Large Capacitance

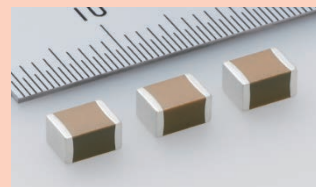

Ultra-small (0201 mm)

Enabling miniaturization and reduction in device profiles

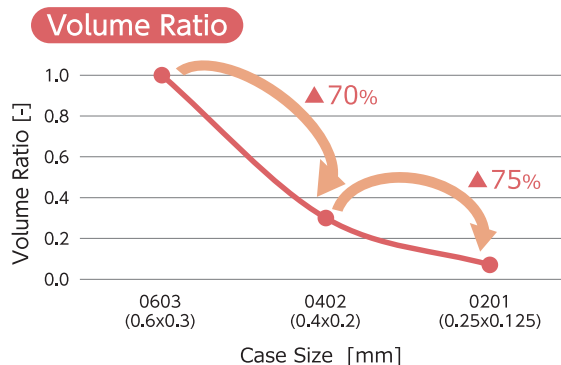

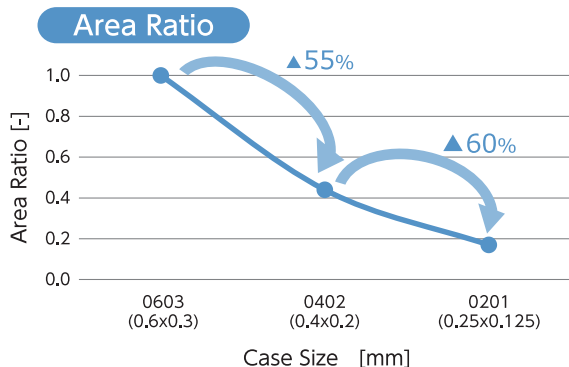

Large Capacitance

World's largest (1000 μF)

World's first 1,000μF ceramic capacitor; leading the competition in large capacitance multilayer ceramic capacitors

Area and Volume Reduction Due to Downsizing

TAIYO YUDEN
