Visualization of Smell

# Smell Sensors

## Overview

- Visualization of "Smell" using multi-sensors
- Detect and identify "smell" instead of sense

## Applications

- Visualizing the smell that enriches people's lives

**Things that cannot be seen** → Turning the fragrance of flowers into **words**

**Things that cannot be touched** → Making dangerous smells **quantified**

**Things that cannot be heard** → Using unusual smells as **alarms**
